3. Click the **Connect app**.

The following Aviso-authorization page appears and lets you collect the authorization key.

4. Collect the authorization code from the URL and share it with your dedicated Customer Success Manager from Aviso.

For example, assume you received the following URL on the Aviso-authorization page:

`https://aviso.app.aviso.com/oauth/callback/aviso.com?code=d759aba2-786b-4b0c-b2d4-2c3fc9dbec8f8&state=null`

In this case, you can share the colored text (`d759aba2-786b-4b0c-b2d4-2c3fc9dbec8f8`) as your authorization code with Aviso. After you share your authorization code with Aviso, wait for the confirmation from Aviso.

5. Log in to HubSpot and go to **HubSpot Account > Settings > ConnectedApp**. You can see the Aviso (AvisoIntegrationApp) app on the ConnectedApp page.
